## 2020, 1-2. periods

5 credit units

ItSE-2020-Trello-v5

Trello tool

**The Agile Scrum Framework at a glance**

# Next: Trello board, for work division and scheduling

- at ItSE (and JOTU) courses groups have been using Kanban board for finding out tasks, dividing those to groupmembers, and also scheduling
- so that nothing is forgotten
- Trello tool is free and easy to use  (www.trello.com)
- you may well use trello e.g. to plan your studies, hobbies, or holiday trips
- and once again, groups set up their Trello board by Sun 13.09.2020 and invite their group assistant there (group assistants are assigned to groups after grouping has ended).

# Four leftmost are the default lists/columns at group's Trello board
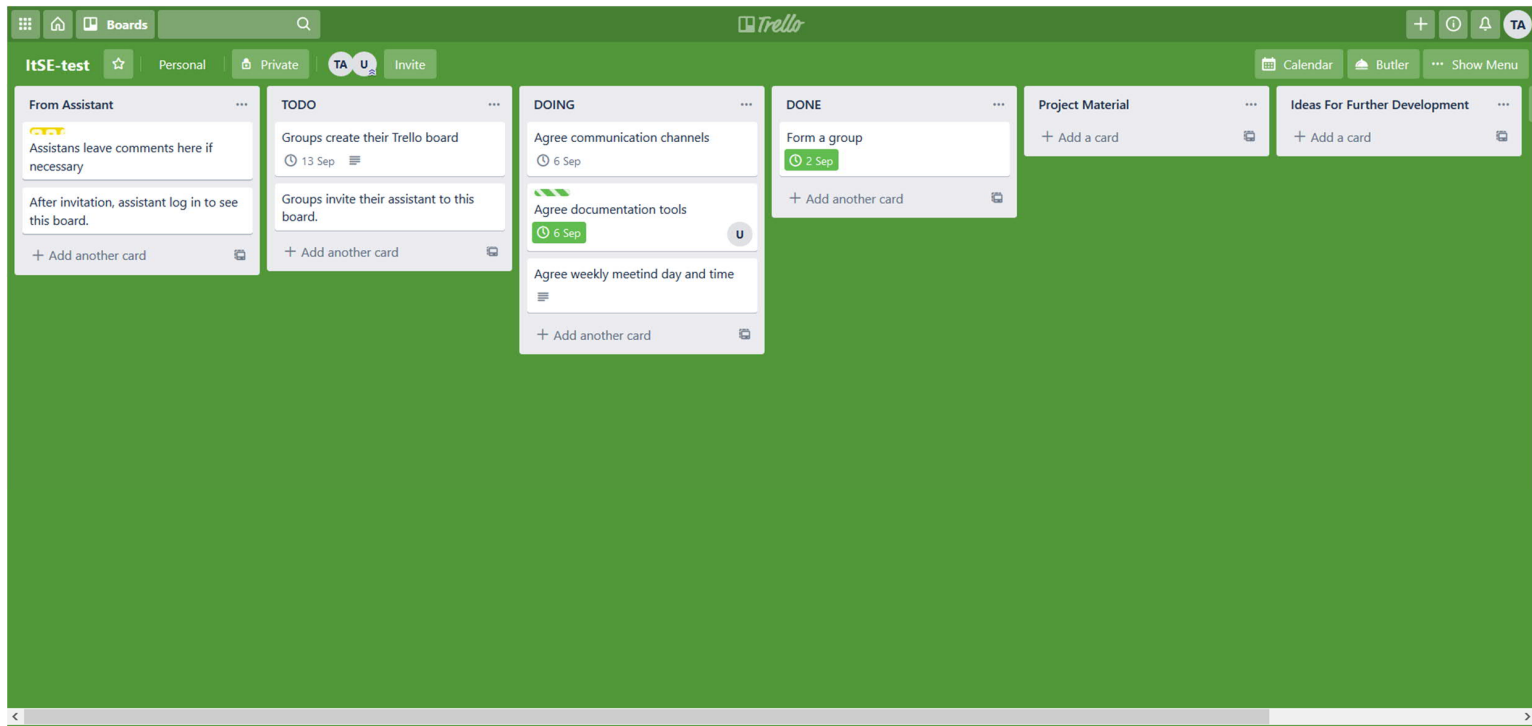

# Default lists/columns at group's Trello board

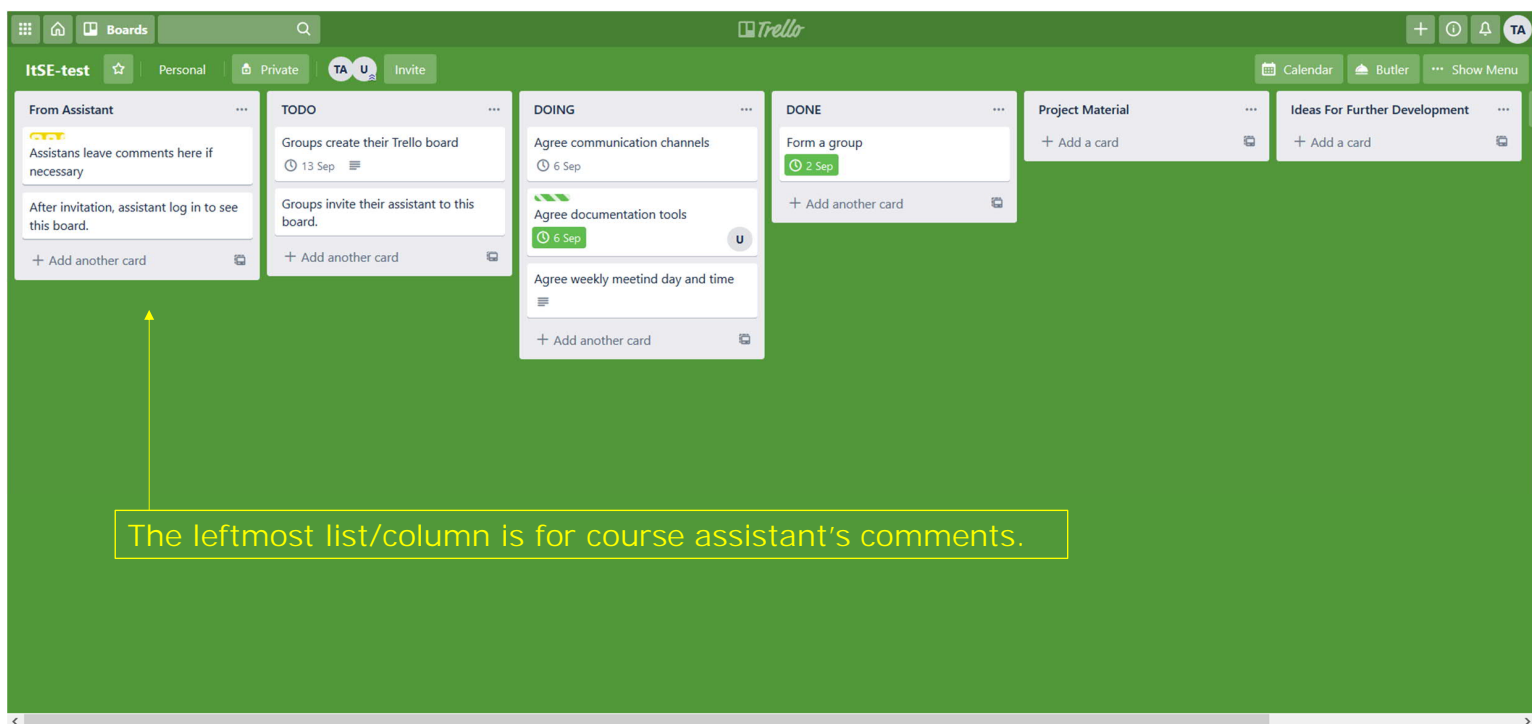

The leftmost list/column is for course assistant's comments.

# Default lists/columns at group's Trello board

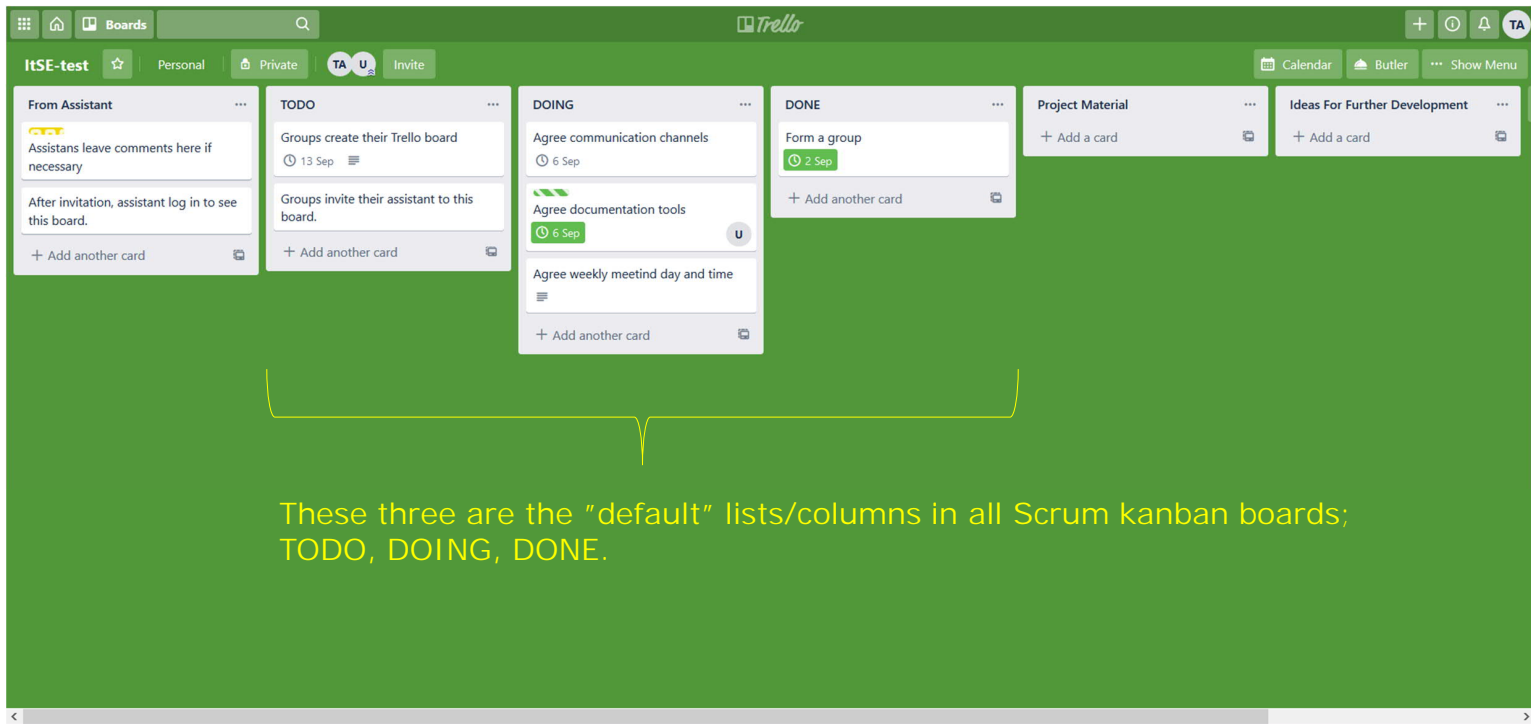

These three are the "default" lists/columns in all Scrum kanban boards; TODO, DOING, DONE.

# Invite group assistant to your group's Trello board

Invite group assistant to group's board

NOTE!
Invite assistant to the board. Just adding assistant to the team (other functionality) has resulted in lacking rights in the board.

# You can easily edit and modify card/task

In next slide this card is opened.
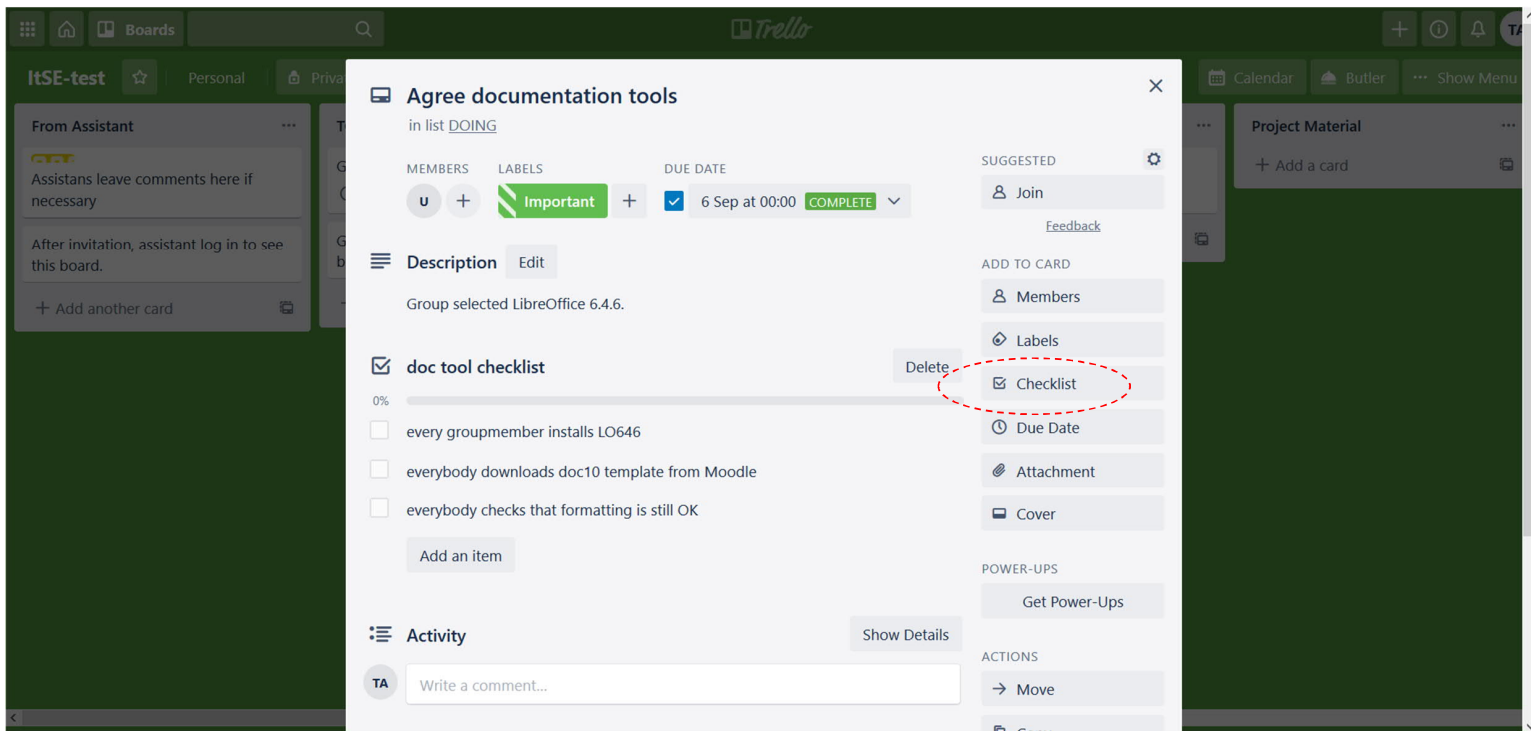

# Some other Trello features

Activity = change log
